## 2022 KINDERGYM INFORMATION

Thank you for your interest in our Kindergym program. We offer two types of classes. A parent participation program for 2-4 year olds which runs for 45 minutes and an independent program for 3.5-5 year olds which runs for 55 minutes.

Our Kindergym program combines games, music, group work and structured activities to develop the fundamentals of movement in a fun, positive and encouraging environment. The children will use all of the equipment including trampolines, beams, bars and foam pit. Our aim is to introduce the children to the fundamental body shapes and movement patterns used in gymnastic skills through a wide variety of themed movement activities. Children also learn skills such as safe landings, how to roll, swing, balance and take weight on their hands in preparation for handstands and cartwheels. We also focus on helping children to learn how to line up and wait for their turn as well as how to interact in a positive manner with the instructor and other children in the class. The children can progress from Kindergym to our General Gym or Development program when they start school.
